

82Li SERIES™

82V^{MAX} LITHIUM-ION

The Briggs & Stratton 82Li SERIES™ is the trusted solution to apply Lithium-Ion power to your existing mower line-up.

With load sensing technology and the universal mounting pattern, it could not be easier to provide Lithium-Ion power for optimal performance.

82Li Series™ Features At A Glance

- Load sense technology – senses grass thickness and optimizes power for the best quality cut
- Universal mounting – easily mount to an existing lawn mower deck
- Low noise and low emissions
- Push button starting – easy for everyone to use
